

WOOSTER

Wool Applicators

Nature's Roller Fabric Continues to Deliver Impressive Results

The first roller covers ever produced were made using lambskin. Although it can be more expensive, many professionals still prefer shearing or wool because of its shed resistance and excellent natural capacity for outstanding production. Wooster offers a wide range of high-performance wool applicator products for walls, ceilings, floors, and exteriors.

Wooster Wool™

Natural lambskin covers, hand sewn with extra attention to quality. Single-piece, heart of the pelt construction eliminates multiple seams and gaps. Very dense and soft to roll out the fastest, most uniform finish with all paints, including latex, alkyds, enamels, and urethanes. Thick professional phenolic core resists water and solvents.

Lambswool 100™

Unique design provides full paint capacity and consistent quality. Natural lambswool is knitted into a synthetic backing to prevent delamination. Quickly applies stains, waterproofing, and all flat or satin paints, including latex. Green double-thick polypropylene core resists solvents and cracking.

50/50™

Made with a high-performance blend of 50% natural wool and 50% polyester, Wooster 50/50 is an affordable alternative to shearing. Shed-resistant construction offers less matting, along with excellent paint pickup and release with all flat, satin, and semigloss paints. Green double-thick polypropylene core resists solvents and cracking. Also available in 4½- and 6½-inch Jumbo-Koter® miniroller sizes.

WOOSTER®

Wool Applicators

Shearling Floor Applicator & Refill

Shed-resistant 100% lambskin for fast, uniform coverage with urethanes, stains, varnishes, sealers, and floor wax. Wiping action avoids bubbles. Sealed hardwood block is threaded for standard extension pole use. Refills, sold separately, install easily.

Wool Pad Painter

Perfect for edging and corners, this hand-held pad is also made with 100% natural shearling. Features a comfortable polypropylene handle, durable yet lightweight. Pad measures 5½-inches long by 3½-inches wide. Provides a smooth, fast finish with all types of wood floor coatings.
