

WOOSTER® Speed Bucket™

Painters... Start Your Engines

It's time to get up to speed—now painters can quickly brush and roll with one bucket. Wooster Speed Bucket is a useful, medium-sized pail that holds a brush and roller at the same time. It works with all 7-inch covers. In a race to the finish, Speed Bucket wins every time.

Brush & Roll

A powerful magnet at the back of the bucket holds a brush by its ferrule. Molded underneath the plastic, it won't rust or trap paint. A generous, built-in grid has extra ribbing for easy loading. At the front of the 7½-inch wide grid, a notch keeps a roller frame in place when not in use.

Unique Size

Speed Bucket fits rollers 7 inches or smaller. Try it with 6½-inch Wooster Jumbo-Koter® minirollers. It's great for smaller painting projects that don't require a full-size bucket or tray. Large, 1/2-gallon working capacity means less labor to refill.

Convenient & Quick

With a comfortable bail and legs for added stability, this bucket can go almost anywhere. Made from durable polypropylene, it resists solvents for easy cleaning. For easy merchandising, Speed Bucket has an informative, trilingual sticker and nests to maximize shelf space.
